## Design, Develop, Manufacture with Smart Solutions

Showcasing new Innovations in Electronics and Advanced Manufacturing

In association with

[www.electronex.com.au](http://www.electronex.com.au)

Rosehill Gardens Sydney 5-6 September 2018

See Us On  
Stand D6

### Make Smart Connections

In the fast paced world of electronics design and manufacturing this two day exhibition and conference is the best opportunity to compare and source all the latest products, technologies and solutions to gain a competitive edge.

**Design, Electronic Engineers, OEM, Scientific, Communications and Industrial Professionals and Technicians** are invited to attend this event

where you will find the latest technology for design, product and system assembly, manufacture, R&D, test, measurement, service and distribution.

**This specialised B2B** event continues to enjoy strong growth and is the pre-eminent electronics technology showcase and conference in Australasia.

**Discuss your requirements with industry experts and find the right solutions for your business!**

**Register Online Now!**  
[www.electronex.com.au](http://www.electronex.com.au)

### Meet Leading Suppliers

Over 100 companies will be represented at the show. Following is just a sample of who you will see. Visit the website for the latest exhibitor list.

- |                            |                                   |   |
|----------------------------|-----------------------------------|---|
| ADM Instrument Engineering | IMP Electronics Solutions         | QualiEco Circuits                         |
| Altronics Distributors     | JS Electronics                    | Radytronic*                               |
| Ampec                      | Juki*                             | Reid Industrial                           |
| Amphenol*                  | Keysight Technologies             | Resurface Technologies                    |
| ASSCON*                    | Kobot Systems                     | Rigol Technologies*                       |
| Atten*                     | Kolb*                             | Rifec*                                    |
| Autotronic*                | Komax WIRE*                       | Rohde & Schwarz                           |
| Chemtools*                 | Lektronics                        | Rolec OKW                                 |
| Congatec Australia         | Lelon*                            | Salecom*                                  |
| Control Devices Australia  | Lintek                            | Scientific Devices Australia              |
| Deutsch*                   | LPKF Laser & Electronics*         | Screen Process Circuits                   |
| Dinkle*                    | Machinery Forum                   | Silcon Chip Publications                  |
| Electro Harmonix*          | Marque Magnetics Ltd              | Simultech                                 |
| Electrolube*               | Mastercut Technologies            | Suba Engineering                          |
| Element 14                 | Mean Well Australia*              | Successful Endeavours                     |
| Embedded Logic Solutions   | Mektronics                        | Sunon*                                    |
| Emona Instruments          | Micron*                           | Surface Mount & Circuit Board Association |
| ESI Technology Ltd*        | Mornsun                           | Tagarno*                                  |
| Fairmont Marketing         | Mouser Electronics                | Tarapath                                  |
| Fuseco                     | National Instruments              | TechHome*                                 |
| GLW*                       | Neutrik*                          | TJK Technologies                          |
| Glyn Ltd                   | Ningbo Degson                     | TRIO Test & Measurement                   |
| GPC Electronics            | OKW*                              | UniMeasure*                               |
| Hakko Australia*           | ONboard Solutions                 | Vicom Australia                           |
| Hammond Electronics        | On-Track Technology               | Wago                                      |
| Hawker Richardson          | Oritech                           | WDT ToolTech*                             |
| Helios Power Solutions     | Oupiin*                           | What's New in Electronics                 |
| Henchman                   | Powertran*                        | WURTH Elektronik                          |
| Hetech                     | Precision Electronic Technologies |   |
| HK Wentworth               | Pros kit*                         |   |
| HW Technologies            |                                   |   |

\*Denotes company or brand represented on stand

## New Products and Technology

- Assembly Equipment
- Board Cleaning Systems
- Cables & Connectors
- CAD & Manufacturing Software
- Contract Manufacturing
- Displays/ LEDs & LCDs
- Education & Training
- Electronic Components
- Embedded Computers, Systems
- EMI/EMC Control & Certification
- Enclosures
- Flexible Electronics
- Identification and Labelling
- Inspection Equipment
- IOT
- PCB Design
- PCB Fabrication & Test
- Power Supplies
- Service & Repair
- Soldering Supplies
- Soldering and Rework Tools
- Storage & Packaging
- Test & Measurement
- Wire & Harness

## Who Should Attend

ELECTRONEX HAS NEW PRODUCTS AND SOLUTIONS FOR PROFESSIONALS IN THE FOLLOWING AREAS:

- Automotive, Aviation and Transport
- Broadcast, IT and Communications
- OEMs, General Manufacturing and Engineering
- Product Design and Systems Integration
- Medical and Biomedical
- Defence, Security, Government & Utilities
- Scientific, R&D, Education and Training
- Test, Measurement, Service and Repair
- Industrial, Mining and Construction

## Times and Venue - Rosehill Gardens-Sydney

Wednesday 5th September 10.00 am - 6.00 pm

Thursday 6th September 10.00 am - 5.00 pm

## SMCBA Conference

The SMCBA'S 30th Annual Conference will feature workshops by USA experts Susy Webb and Jasbir Bath. Topics include: Designing Beyond Simulation, Building a Bridge from Design to Manufacturing, Design for Manufacturability and Reliability, The Complexities of Designing with Fine Pitch, Part Placement Choices and Consequences, Printing and Its Affect on Manufacturing Yield, Reflow and Wave and Rework Soldering Process Optimization. There will also be an IPC-A-610 Training and Certification Program plus free seminars on the latest hot topics.

For full conference details visit [www.smcba.asn.au](http://www.smcba.asn.au)

**FREE PARKING**
